EDUCATION

Vellore Institute of Technology, Bhopal

2023 – 2027

B.Tech - Computer Science and Engineering - CGPA - 8.62

Bhopal, Madhya Pradesh

EXPERIENCE

Intern at Codec Technologies India

May 2025 - June 2025

Role - Web Developer

Remote

- Engineered and launched 3+ fully responsive web pages for client projects using **HTML5**, **CSS3** and **JavaScript (ES6)**, resulting in a 15 percent improvement in user engagement metrics.
- Collaborated in an Agile team to build and debug dynamic web applications, ensuring complete **cross-browser compatibility** across Chrome, Firefox, and Safari and reducing bug reports by 20 percent.
- Integrated third-party **RESTful APIs** to incorporate real-time data feeds and managed code versions using **Git** and **GitHub** for collaborative development on live production projects.

Intern at The Red Users

Feb 2025 - March 2025

Role - Cybersecurity Intern

Remote

- Conducted **vulnerability assessments** and **penetration testing** on web applications using the **OWASP Top 10** framework, identifying and documenting 5+ critical security flaws.
- Utilized **Wireshark** to monitor and analyze over 1GB of daily **network traffic**, identifying and escalating potential threats based on security log analysis.
- Employed cybersecurity tools including **Nmap** for network mapping and **Burp Suite** for intercepting web traffic to perform comprehensive **threat analysis** and propose **risk mitigation** strategies.

PROJECTS

Darpan - A Deepfake Analyzer | Frontend Developer

Dec 2024

- Engineered a clean and intuitive user interface for a deepfake analysis tool using **React.js**, creating 10+ reusable and responsive **UI components** that streamlined the user workflow.

Aarogya Bandhu - A Healthcare Companion | Frontend Developer

April 2025

- Engineered an accessible and responsive user interface using **React**, **HTML5**, and **CSS3**, implementing 15+ interactive components to create a seamless and intuitive user experience for health tracking.
- Collaborated with backend developers to integrate **REST APIs** for seamless real-time health data synchronization, enabling features like live heart rate monitoring and activity tracking.

TECHNICAL SKILLS

Languages: Python, C++, Java, JavaScript, SQL

Technologies/Frameworks: HTML5, CSS3, React.js, JavaScript

Version Control: Git, GitHub

Cybersecurity Tools: Wireshark, Nmap, Burp Suite

Databases: SQL, DBMS

Developer Tools: VS Code, PyCharm, Heroku, MATLAB, Canva

Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOPs), Operating Systems

CERTIFICATIONS

- IBM Gen AI - AdroIT Technologies
- High Performance Coding Course **MERN Stack Developer** - iamneo
- The Bits and Bytes of Computer Networking - coursera
- Student SOC Program Foundations training - Microsoft

EXTRACURRICULAR

- Event Management Team Core Member, **OWASP Student Chapter** - VIT Bhopal University
- Event Management Team Co-Lead, **Pahadi Club** - VIT Bhopal University
- Event Management Team Core Member, **Insights Club** - VIT Bhopal University
